Long Comprehension

Have you ever wondered what keeps a hot air balloon flying? The same rule that keeps food frozen in the open chest freezers at the grocery store allows hot air balloons to fly. It's a very basic rule: Hot air rises and cold air falls. So while the super-cooled air in the grocery store freezer settles down around the food, the hot air in a hot air balloon pushes up, keeping the balloon floating above the ground. In order to understand more about how this rule works in hot air balloons, it helps to know more about hot air balloons themselves.

A hot air balloon has three major parts: the basket, the burner, and the cover. The basket is where passengers ride. The basket is usually made of bamboo. This ensures that it will be comfortable and add little extra weight. The burner is positioned above the passenger's heads and produces a huge flame to heat the air inside the cover. The cover is the colorful fabric balloon that holds the hot air. When the air inside the cover is heated, the balloon rises.

The pilot can control the up-and-down movements of the hot air balloon by regulating the heat in the cover. To ascend, the pilot heats the air in the cover. When the pilot is ready to land, the air in the balloon is allowed to cool and the balloon becomes heavier than air. This makes the balloon descend.

Before the balloon is taken off, the pilot knows which way the wind is blowing. This means that she has a general idea about which way the balloon will go. But, sometimes the pilot can actually control the direction that the balloon flies while in flight. This is because the air above the ground is sectioned into layers in which the direction of the wind may be different. So, even though the pilot

can't steer the balloon, she can fly or higher or lower into a different layer of air. Some days the difference between the directions of the wind between layers is negligible. But other days the difference is so strong that it can actually push the balloon in a completely different direction!

- 1) According to the passage, balloon pilots control the balloon's highness by
 - A. moving into a different layer of air
 - B. regulating the air temperature inside the balloon
 - C. adjusting the amount of air in the envelope
 - D. changing the amount of weight contained in the basket

- 2) As used in paragraph 3, which is the best synonym for **ascend**?
 - A. move

 - I. **comfortable**
 - II. **lightweight**
 - III. **durable**
 - A. I only
 - B. I and II only
 - C. II and III only
 - D. I, II, and III

- 5) If the hot air balloon pilot wants to change directions during flight, what might he or she do to do this?
 - A. head toward a mountain peak
 - B. wait for it to rain
 - C. fly into a cloud
 - D. fly higher

- 6) Using the passage as a guide, it can be inferred that which of the following statements is not true?

For two months, I have been trying to decide who makes the best ice cream. I have narrowed it down to my four favorite manufacturers: Randolph Farms, Goodies, Disco, and Twinkle.

Let's start with Randolph Farms. Randolph Farms makes very good ice cream. They have lots of different flavors, but this doesn't really matter to me. That's because I always get coffee flavor. They make the best coffee ice cream in the world. I've never had hot coffee (the drink) but people tell me that Randolph Farms coffee ice cream tastes just like the real thing. Also, Randolph Farms uses all natural ingredients to make their ice cream. This is a good idea, I think.

Second, we have Goodies. Goodies makes excellent ice cream. Like Randolph Farms, Goodies uses all natural ingredients. They only make three different flavors—strawberry, vanilla, and chocolate—but they make them very well. The strawberry is amazing. Every bite of it reminds me of the strawberries that I used to pick behind my old house. The vanilla is wonderful. It is very smooth and has a refreshing, creamy taste. The chocolate is outstanding. It is made with real cocoa beans from Bolivia. I didn't know where Bolivia is so I decided to look for it on a map. After hunting awhile, I discovered that it is in South America! That's a long way to go to get cocoa, so it must be good. I would say that the only drawback to Goodies ice cream is that they only make three different flavors.

Third, we have Disco. Disco ice cream is okay. They don't have many good flavors. Actually, the only Disco flavor I like is Bubblegum. It is vanilla ice cream with little chunks of bubblegum in it. After you eat the ice cream, you can blow bubbles with the gum. That's pretty fun.

Finally, there is Twinkle. Twinkle ice cream is mediocre. The only good thing about Twinkle is that it is relatively inexpensive. You can buy a whole carton of twinkle ice cream for \$4.50. That's only two weeks' allowance for me.

1) Which of the following would be the best title for this passage?

- A. Strawberry, Vanilla, Chocolate, and Bubblegum Too!
- B. The Four Top Ice Cream Manufacturers
- C. The Finest Ice Cream in the World
- D. Picking the Best Ice Cream Manufacturer

2) If the author wanted to get a scoop of coffee ice cream, where would he or she probably go?

- A. Randolph Farms
- B. Goodies
- C. Disco
- D. Twinkle

3) According to the passage, the author likes Randolph Farms ice cream because it

I. is all natural

II. is made in Bolivia

III. comes in many flavors

- A. I only
- B. I and II only
- C. II and III only
- D. I, II, and III

- 3) According to the passage, the author likes Disco ice cream because it
- A. is relatively inexpensive
 - B. has bubblegum in it
 - C. is made in Bolivia
 - D. is okay
- 4) According to the passage, how is Randolph Farms ice cream different than Goodies?
- I. Randolph Farms has many different flavors and Goodies does not.
 - II. Randolph Farms uses all natural ingredients and Goodies does not.
 - III. Randolph Farms is very expensive and Goodies is not.
- A. I only
 - B. I and II only
 - C. II and III only
 - D. I, II, and III
- 5) According to the author, what is the only drawback to Goodies ice cream?
- A. cheap ingredients
 - B. expensive price
 - C. mediocre quality
 - D. a lack of flavors
- 6) How much money does the author receive in his or her weekly allowance?
- A. \$2.25
 - B. \$4.50
 - C. \$9.00
 - D. Not enough information is provided
- 7) Given the information included in the passage, which of the following statements would the author most likely agree with?
- A. Each manufacturer has its strengths and weaknesses.
 - B. The best manufacturers are the ones with the most flavors.
 - C. Goodies is certainly not the best manufacturer, as they only have three flavors.
 - D. Each manufacturer is good for different reasons.
- 8) If the author did decide that one manufacturer is best, which one would he or she probably choose?
- A. Randolph Farms
 - B. Goodies
 - C. Disco
 - D. Twinkle
- 13) How many weeks would it take for the author to save enough money to buy two cartons of Twinkle ice cream?
- A. 1 week
 - B. 2 weeks
 - C. 3 weeks
 - D. 4 weeks

Read this letter from Sally to her friend Sheila. For each space, put a relative

pronoun:

whose - where - when - who - which - that

Where both which and that can be used, use that.

Dear Sheila,

In your last letter, you asked me to tell you about all the things I did during my summer vacation.

We went to Vancouver I have some old friends I haven't seen for about three years. My friend Tim, mother I wrote about in my last letter to you, came with me and we had a great time. We flew into Vancouver on Monday 24th,was also my birthday.

The first thing we did was to visit the wonderful aquarium in the city centerthere are three killer whales and a whole crowd of seals, penguins and dolphins. We arrived in the late afternoonall the animals are fed so it was wonderful to see the dolphins leaping out of the water to get the fish they love to eat so much.

The following day,was cloudy and rainy unfortunately, we went to a museumthey have some dinosaur skeletons local people have found in the area. The horrible weather never improved all day so we visited a superb seafood restaurant later in the afternoon and had an early dinner. The waiters, were all dressed in traditional fishermen's clothes, were very friendly and told us about the history of the restaurantname was The Jolly Whaler. The restaurant,has been open since 1888, was once visited by the American President J.F. Kennedy and his wife Jackie.

The skies were blue on Thursday and we spent some time out on the sea in a large boatwe hired. I caught a big fishthe captain said was the biggest he'd seen this year. I felt very proud! We left on Thursday evening after a mini-vacationhelped me to relax a lot and now I have returned to work.

The next timeyou write to me, you must tell me about YOUR last vacation.

Bye for now Sheila, Sally
